Dear Ms. Kelly and Mr. Rabbe:

The New Jersey Department of Environmental Protection (Department) has completed its review of the April 2011 Remedial Action Report for Demolition of Buildings 16, 19 and 20 received on April 19, 2011. The Department has determined that the Remedial Action Report is in compliance with the Technical Requirements for Site Remediation, N.J.A.C. 7:26E and other applicable requirements. The Department hereby approves the Remedial Action Report, effective the date of this letter.

It is recommended that the responsible parties consult with the United States Environmental Protection Agency (USEPA) to determine if that agency has any questions and/or concerns related to the activities conducted on the Standard Chlorine Site, as documented within the Remedial Action Report.
